- Quick mounting system with integrated torque indicator, easy to handle with one hand only. PowerClick preinstalled.
- Allows you to open the box from both sides, for easy mounting, loading and unloading.
- Patented safety locking system – the key can only be removed if all locking points are closed.
- Integrated design for optimized aerodynamics and lowest car positioning.
- Thanks to the forwarded position of the roof box you'll have room to fully open the trunk door.
- Integrated base mat with nonslip surface for extra load securing.
- Automatic load fixation: by just closing the box lid, the load will be fixated and secured automatically with the integrated loading net and crash nose.
- Thule Box light for optimal visibility inside the box. Special designed LED lamp with customized reflector and automatic on/off function when opening or closing the box.
- Thule Box lid cover to protect the box against dirt and scratches while storage.
- Opening with 2way zipper for easy loading and unloading.
- Lockable. Snap lock integrated in zipper.
- Foldable for minimal storage space. Adjustable height to optimize loading space to size of load.
- Made of waterproof material, with welded seams and a sealed zipper.
- Extra lightweight construction for convinient handling.

¹ Inner product measure, based on digitized 3D engineering drawings.
